

Join Us!

We meet monthly from September to June, at the Veronica Connor Middle School's Little Theatre, on the second Tuesday of each month at 4:00 p.m. There may be opportunities to join us at special events or evening meetings throughout the year, and subcommittees that meet at other days and times. We encourage you to find a way to help us make a difference! Find up-to-date information on the school district and Town's websites, and on Facebook.

*Our Vision: A Grand Island
Community that reduces
underage substance abuse.*

**One Island,
One Team,
One Dream
to be Drug Free**

A Community Coalition

T: 716-773-9600 ext. 658

OUR VISION:

One Island, One Team ...

- *A community coalition reducing underage substance abuse on Grand Island.
- *It focuses on both underage individuals and on their families.
- *It is composed of representatives from multiple community sectors.
- *The coalition engages in primary prevention.
- *Intervention strategies are implemented by appropriate outside agencies.

OUR MISSION: To ASSESS, To ANALYZE, To ACT.

Acceptable Means to
Achieve Our Mission:

- Conduct primary and secondary assessments
- Engage in analysis of findings
- Provide education
- Advocate action and engage community sectors
- Enter into contractual agreements

Our team formed in 2006, when our then newly-appointed High School Principal, Sandra Anzalone, surveyed parents, asking them what they thought the needs of the school were. The answer that came back loud and clear was, "You have a drug problem in the school, and nothing is being done about it". Members of our community came together to address this issue; our Coalition includes members of the Town Board, law enforcement, the Ministerium, health care providers, PTA, Erie County Council for Prevention of Substance Abuse, Prevention Resources Network Horizon Health Services, school staff and administrators, parents and students, and is open to all who are interested.
